

Playtime Adventure™

America's #1 Physical Development Program for 3 year olds!

Playtime Adventure is a unique program designed to develop children by focusing on improving a child's Fundamental Motor Skills (FMS) in a fun, parent participatory atmosphere utilizing age appropriate activities and storybook adventures.

Objectives

- Improve the child's Fundamental Motor Skills (Physical Literacy)
- Fun – the child and parents will love the program
- Parent involvement and education

Achieving Objectives 1 to 3 will:

- Increase new players & retention of these players
- Increase volunteers
- Promote soccer and your program

Coordinated Programming

Designed to work in partnership with our professional trainer program, the program will coordinate a minimum 6, to maximum 12, weeks Adventureland curriculum, including a finale party celebration.

Details

The Story.... Can you help 'Team Adventure' find the lost Soccer Treasure that has been scattered throughout Adventureland?

Each one hour class is a full adventure. To complete the adventure the child utilizes and develops specific motor skills. Parents are actively involved in each adventure and home learning.

- Adventureland curriculum – different theme / land each week
- Story / characters / imagination / activities
- Coach – teacher and narrator
- Parents – assist in teaching and play roles
- Storybook

Playtime Adventure™

America's #1 Physical Development Program for 3 year olds!

At the end of each class, once the child has found the lost soccer treasure, the child will receive a Soccer Treasure sticker that can be placed in the "Gold Space" on the corresponding page of the storybook.

Finale Party Celebration

On the final class of the program, the children relive and reinforce their favorite adventures/activities and have a Playtime Adventure Party.

Storybook

As part of the program, each parent / child will receive a Playtime Adventure Storybook. The storybook will follow the curriculum and the various weekly themes. The fully illustrated storybook will include the adventures and motor skills guides. The adventures and skill development can therefore be replicated at home. Additionally, the child can color in the earned "treasure part" in the Soccer Player coloring page. The sequence of class and home participation continues until, skill by skill, all treasure is collected. And so, by the end of the Playtime Adventure program, the coloring of the Soccer Player is complete.

Parent Education

In the storybook, each specific skill has a color guide and bullet point description. This information allows the parent to evaluate and improve their child motor skills.

Session Details

1:8 Ratio. Registration through PlaytimeAdventure.com is available.

For a personalized proposal based on trainer hours per week, multiple trainer discounts and length of training programs, please contact me for more details.
